

Hello Everyone,

The holidays are behind us and January 2019 is in the books. In addition, Punxsatawney Phil has forecast an early Spring. Hopefully he is right. Now let's talk about what is happening around Trinity County...

New Healthcare Provider in Trinity... The clinic at the Trinity Hospital has been taken over by Healthpoint. Healthpoint is a major healthcare provider in the Brazos Valley and we are excited to have them take an interest in Trinity County. I will be meeting with administration from Healthpoint to see about the possibilities of expanding on what is already in place. Hopefully I will be able to bring good news to you all as we move forward.

Changes in the Commissioner's Court... As you are all aware we have two new Commissioners on the Court. Commissioner Mike Loftin, Precinct 2 and Commissioner Steven Truss, Precinct 4. I know that myself and the other Commissioners look forward to working with them and continuing to move Trinity County forward. I would encourage those of you that are available to come to the Commissioner's Court meetings and see firsthand how County Government works.

I want to remind everyone that I have an open door policy and will take time to visit with anyone that comes by the office. If you have an issue or just want to visit, please do not hesitate to come by.

I leave you with this quote from Martin Luther King Jr., "Let no man pull you low enough to hate him".

Until next time
God Bless
Trinity County Judge
Doug Page
